

# Smart Transportation in 3D

Omer Keilaf, Co-Founder & CEO

Innoviz Technologies

May 2025

# Innoviz at a Glance

## Mission Statement

*Global Tier 1 Leader in LiDAR Technology and Perception Software, working towards a future with safe autonomous vehicles on the world's roads*

## Unique Offering

**INNOVIZONE**  
First-Generation  
Automotive-Grade LiDAR

**INNOVIZTWO**  
Automotive-Grade LiDAR

**Perception SW**  
for Innoviz LiDARs

**INNOVIZTWO**  
Slim

**INNOVIZTWO**  
Medium Range

## Leading Customers

## Global Presence

430 Employees

📍 Israel 📍 Silicon Valley 📍 Germany 📍 Romania  
📍 Mainland China 📍 Japan 📍 Korea 📍 Thailand

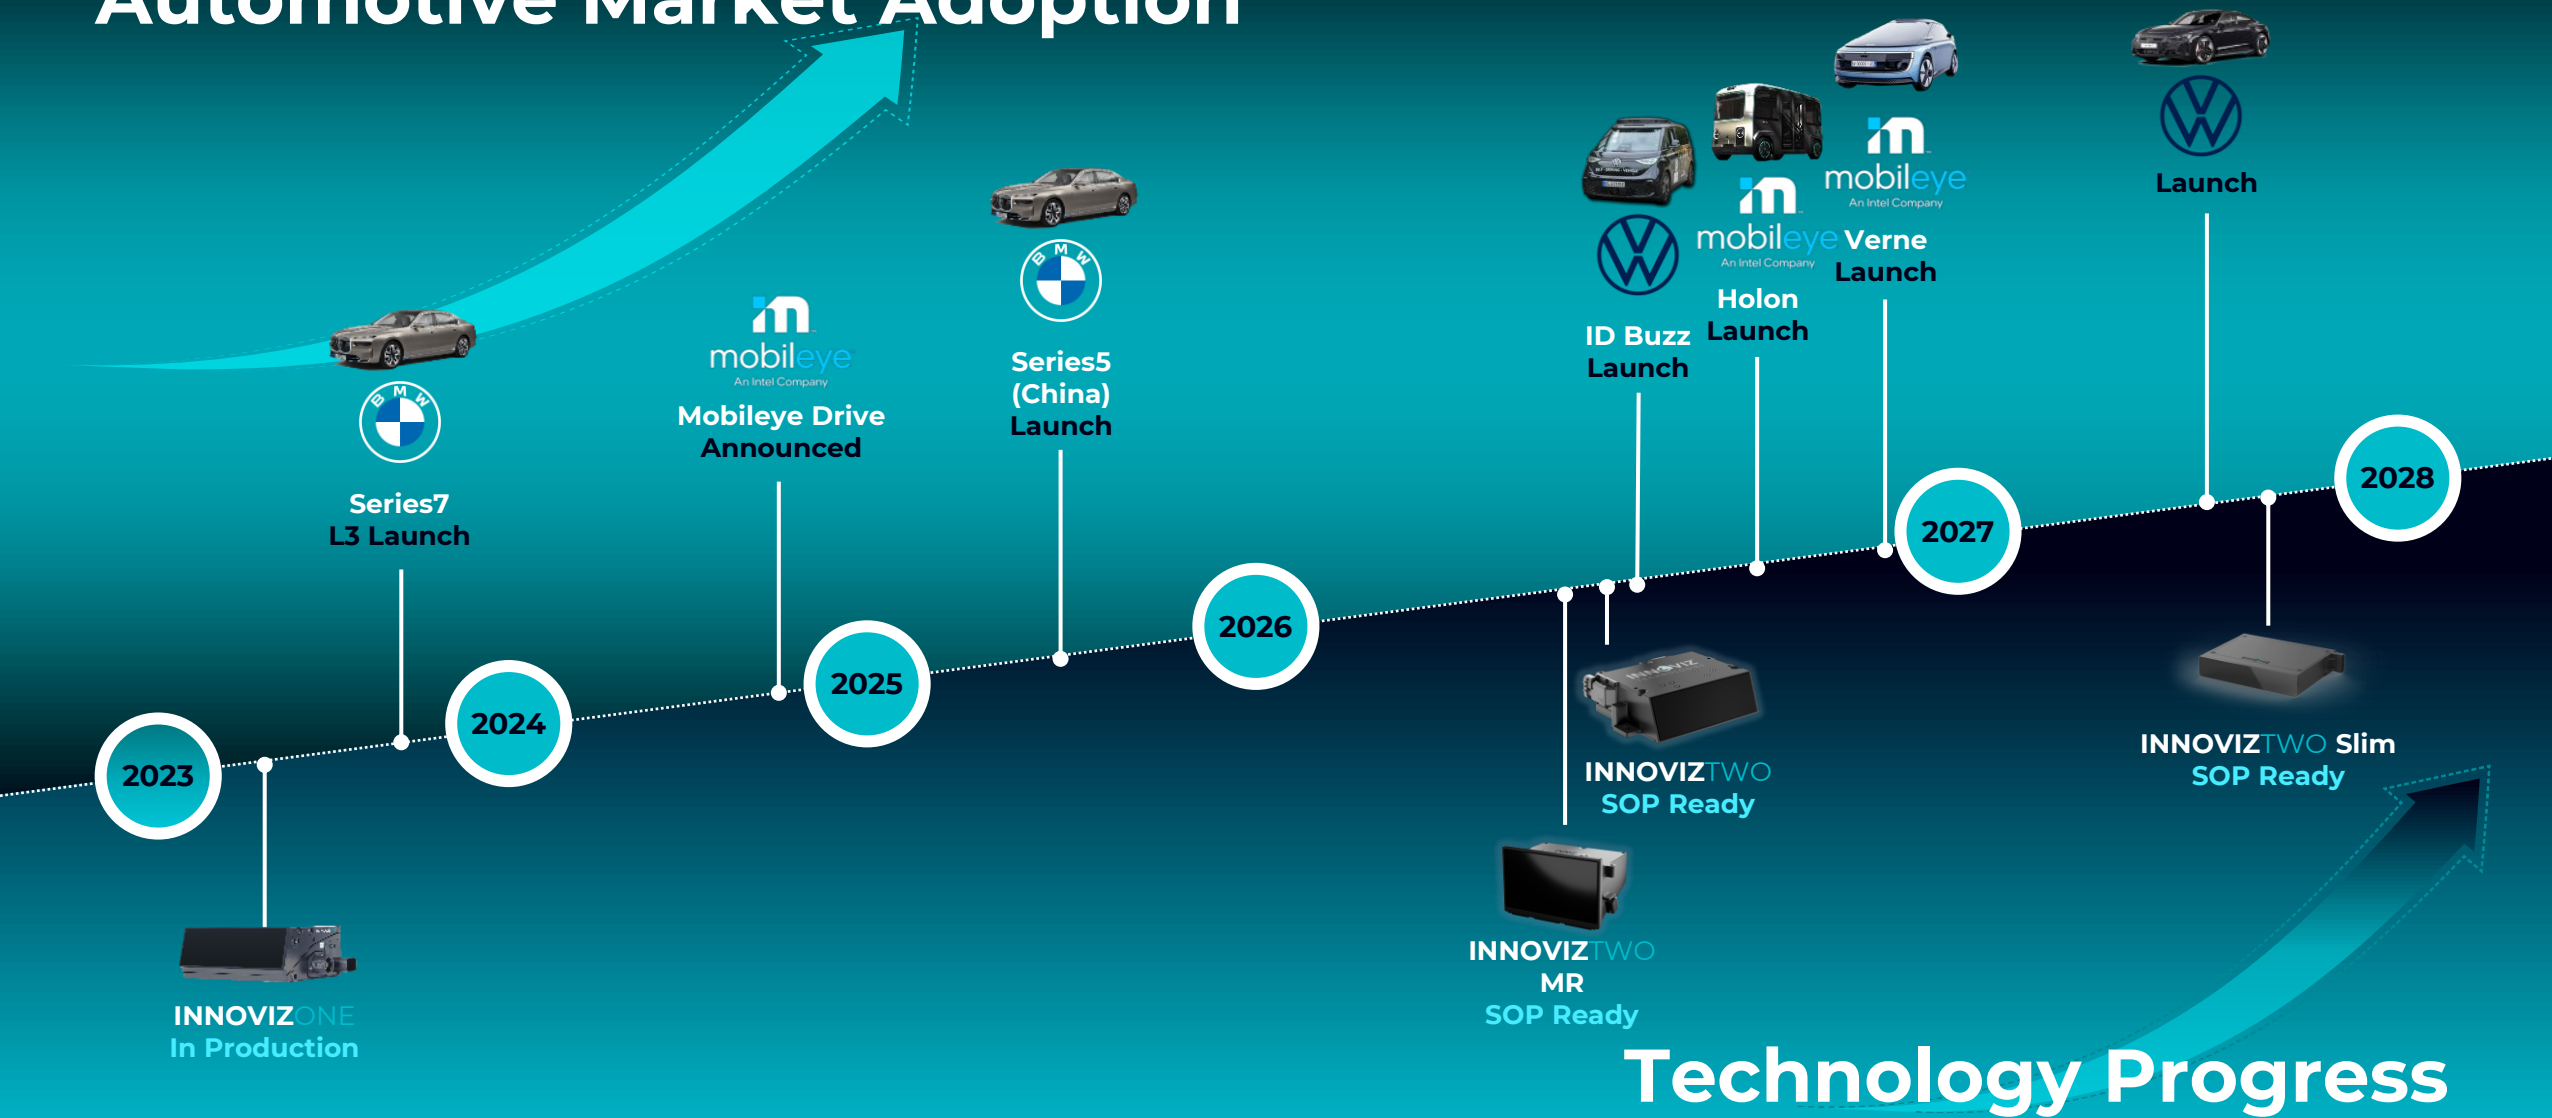

# Innoviz Momentum with Automotive Customers

## Multiple HW & SW Series Production Programs

2017 - 2023	2022 - On Going			
 	  	 	 	
OEM L3 Consumer Vehicle Program	OEM L3 Consumer Vehicle Program	L4 Light Commercial Vehicle Program	OEM L3 Consumer Vehicle Program	Mobileye Drive L4 Platform
Tier 1 with Magna	Tier 1 Supplier	Tier 1 Supplier	Tier 1 Supplier	Variety of L4 Applications: Robotaxis, Shuttles, Public Transport
First to win an OEM production contract for L3 LiDAR	First deal as Tier 1 direct supplier	Displaced a development-stage LiDAR competitor. Both long-range and mid-range LiDARs	Additional multi-brand platform in the VW group	Displaced a development-stage LiDAR competitor. Both long-range and mid-range LiDARs
Awarded for multiple vehicle models	8-10 year program Multiple brands, multiple models

# Automotive Market Adoption

# Innoviz Global Presence

Worldwide Development, Sales, and Support

# Smart Transportation

A futuristic city street at night, illuminated by streetlights and building lights. Several cars are driving on the road. Overlaid on the scene are glowing blue lines and circles, representing sensor waves or data flow, which are part of a smart transportation system. The overall atmosphere is high-tech and modern.

# INNOVIZTWO for Smart Applications

High Resolution, Large Field of View

# Smart City Applications

## Innoviz LiDAR – Unique Range, Resolution & FOV

### › Main Use cases:

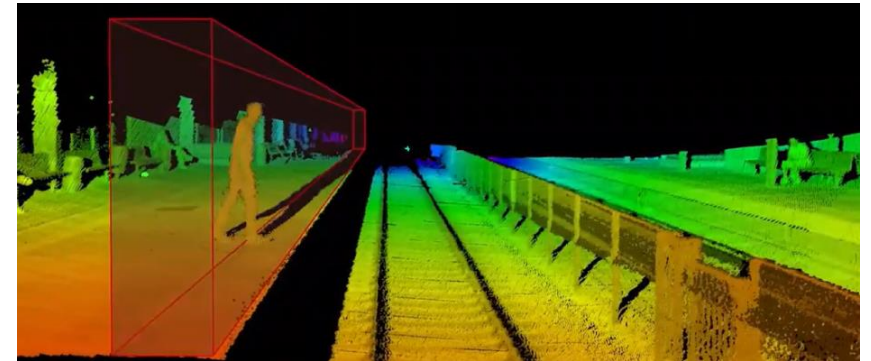

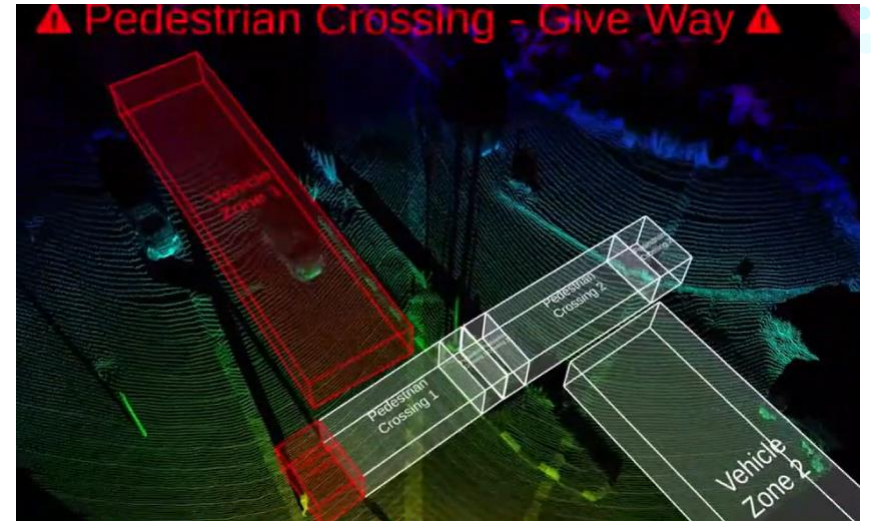

- Intersection monitoring
- Parking lot management
- Vehicle heights detection
- Transportation hubs - Airports and train stations.

### › LiDAR Technology Advantages:

- Operates in complete darkness
- Privacy-Safe
- 3D Detection with a single sensor

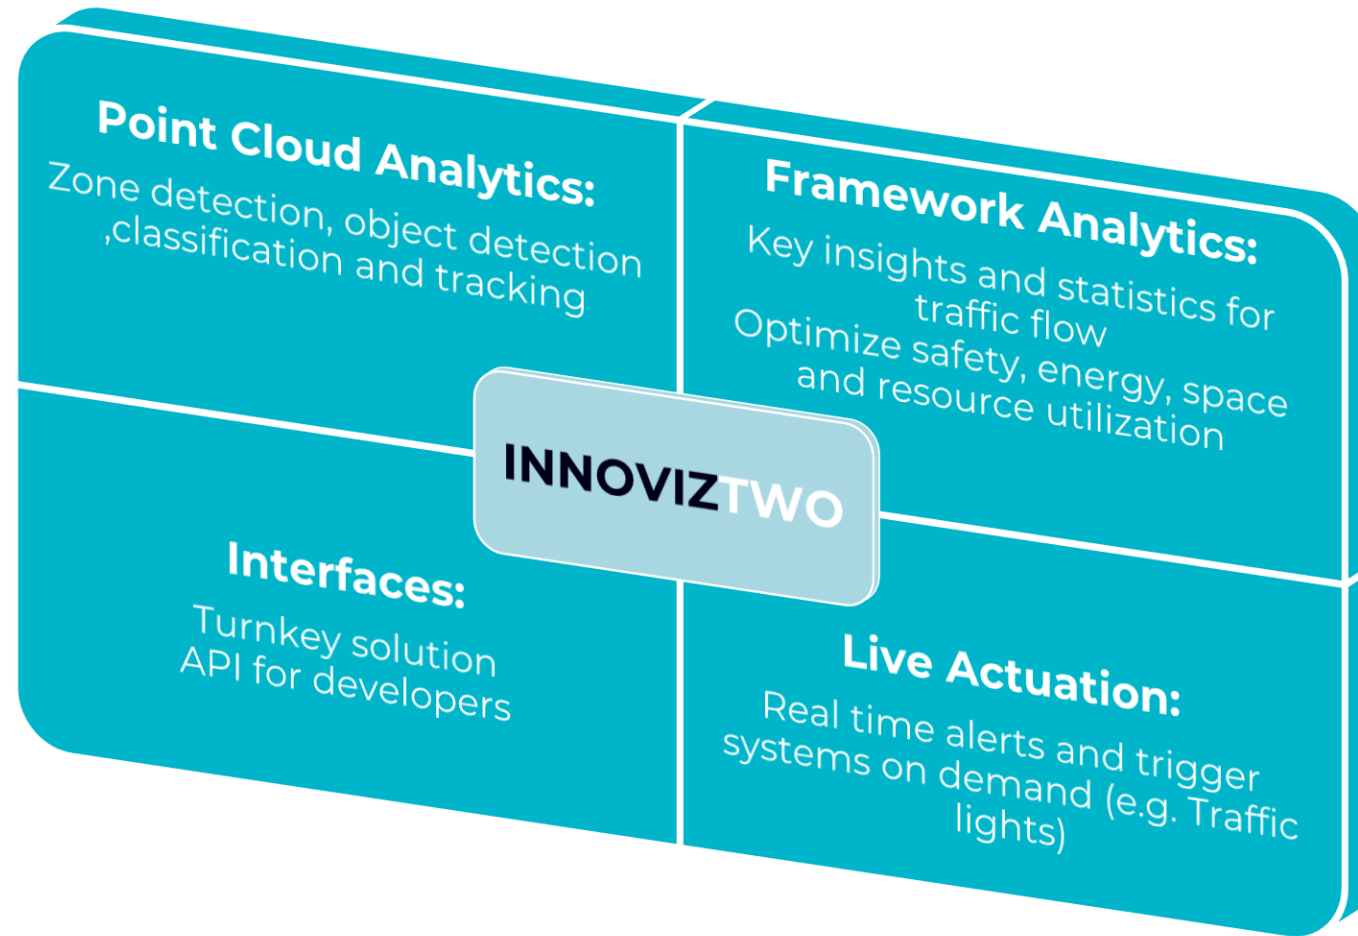

### › Innoviz LiDAR Benefits:

- Wide-Area coverage with fewer sensors
- Continuous traffic flow monitoring with a single unit
- High precision
- Trusted supplier to strategic customers

# Smart City Applications

Turnkey solution

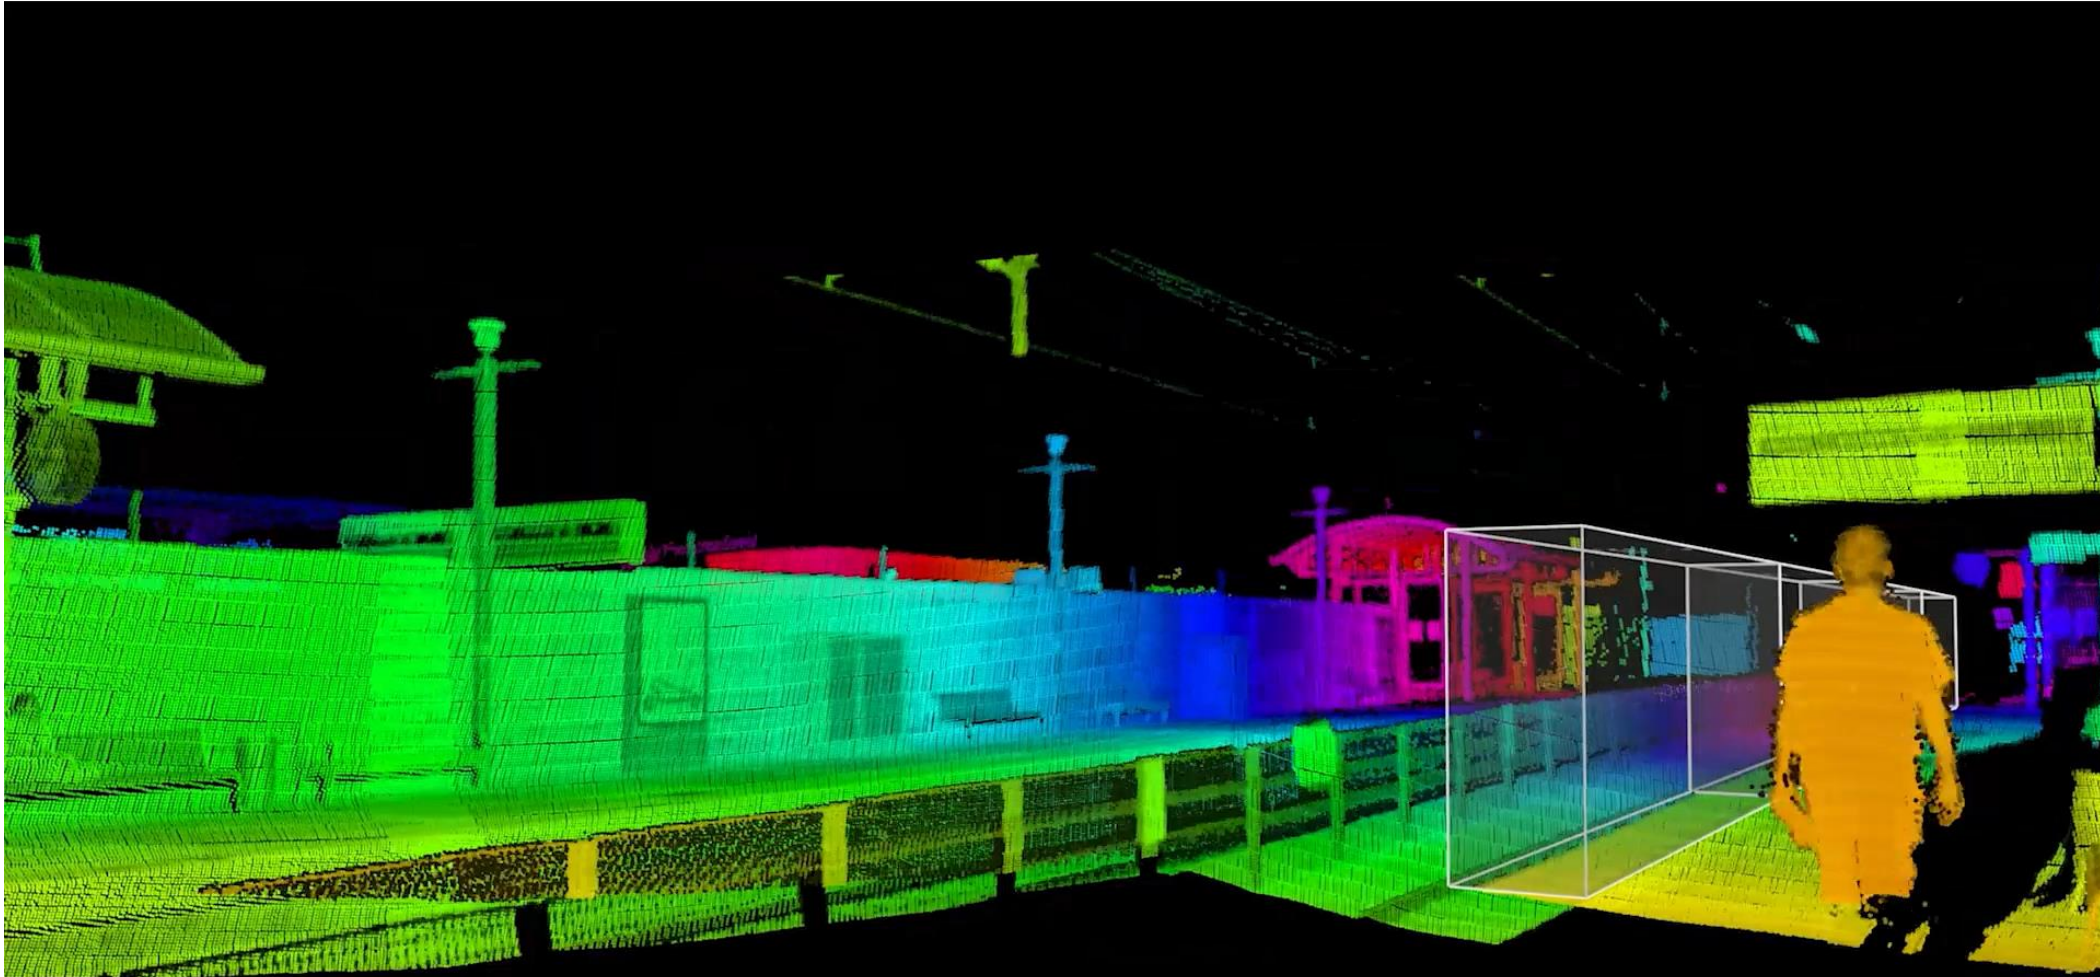

# Tracking Moving Objects

# Smart Rail Management

Virtual wall enables alerting whenever a breach takes place

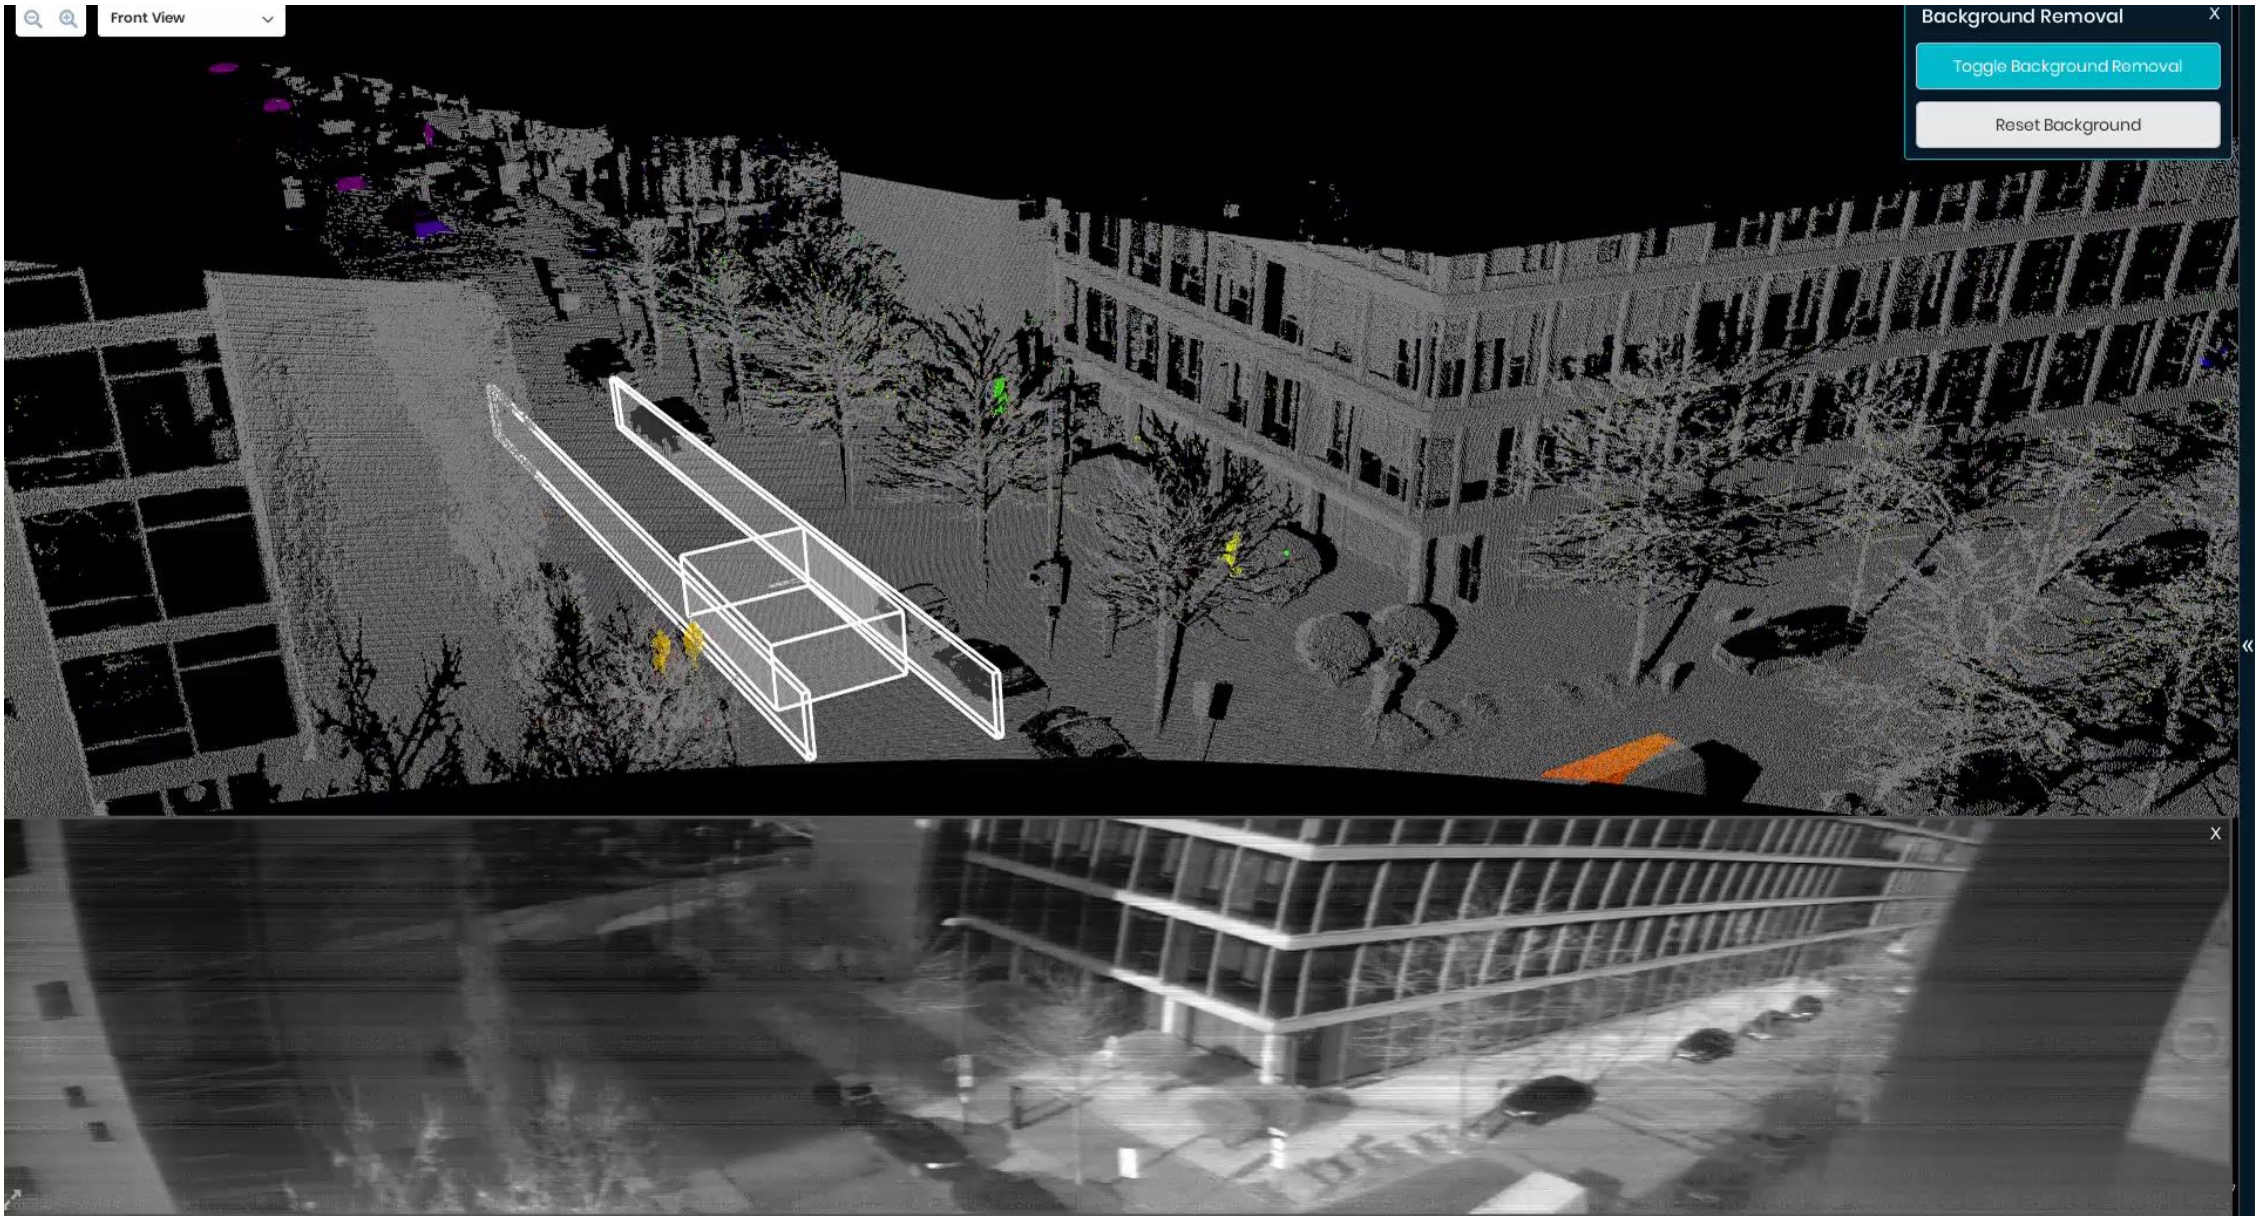

# Height Detection

Enables bridge collision prevention

# Managing and Alerting Restricted Areas

# Additional Applications

# Surveillance Applications

## Innoviz LiDAR – Unique Range, Resolution & FOV

### › Main Use cases:

- Borderline security
- Strategic assets
- Prisons
- Airports
- Small Drone detection
- Spot thrown or dropped objects with high accuracy

### › LiDAR Technology:

- Superior Performance in Complete Darkness

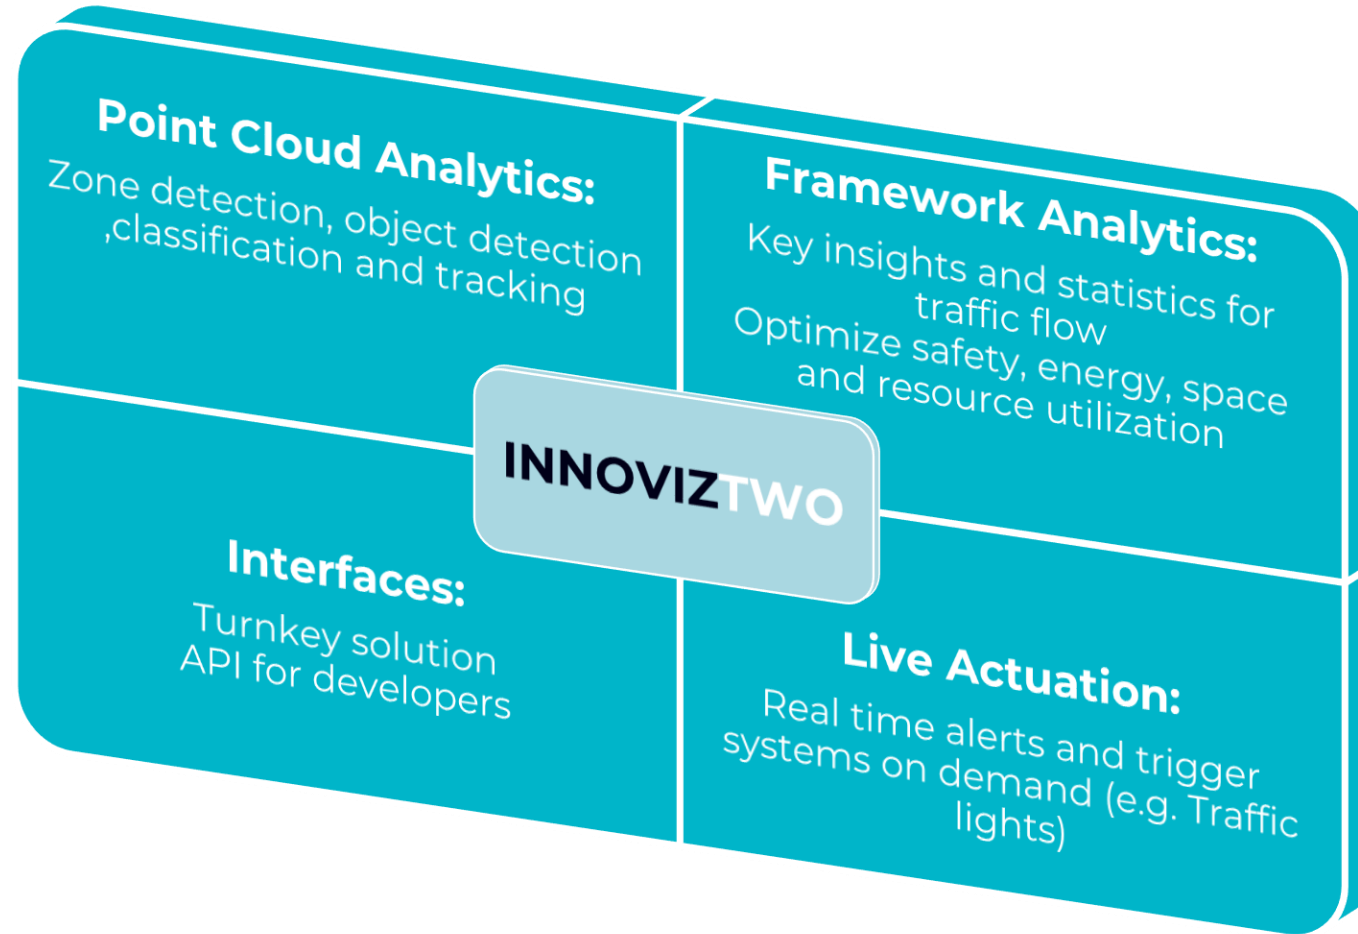

### › Innoviz LiDAR:

- Dual reflections: Optimized for rain and fog conditions
- Dust Resilience
- Super high resolution: Capture maximum pixels for small objects
- Long range and wide FOV: high efficiency and installation simplicity
- High FPS
- Trusted supplier to strategic customers

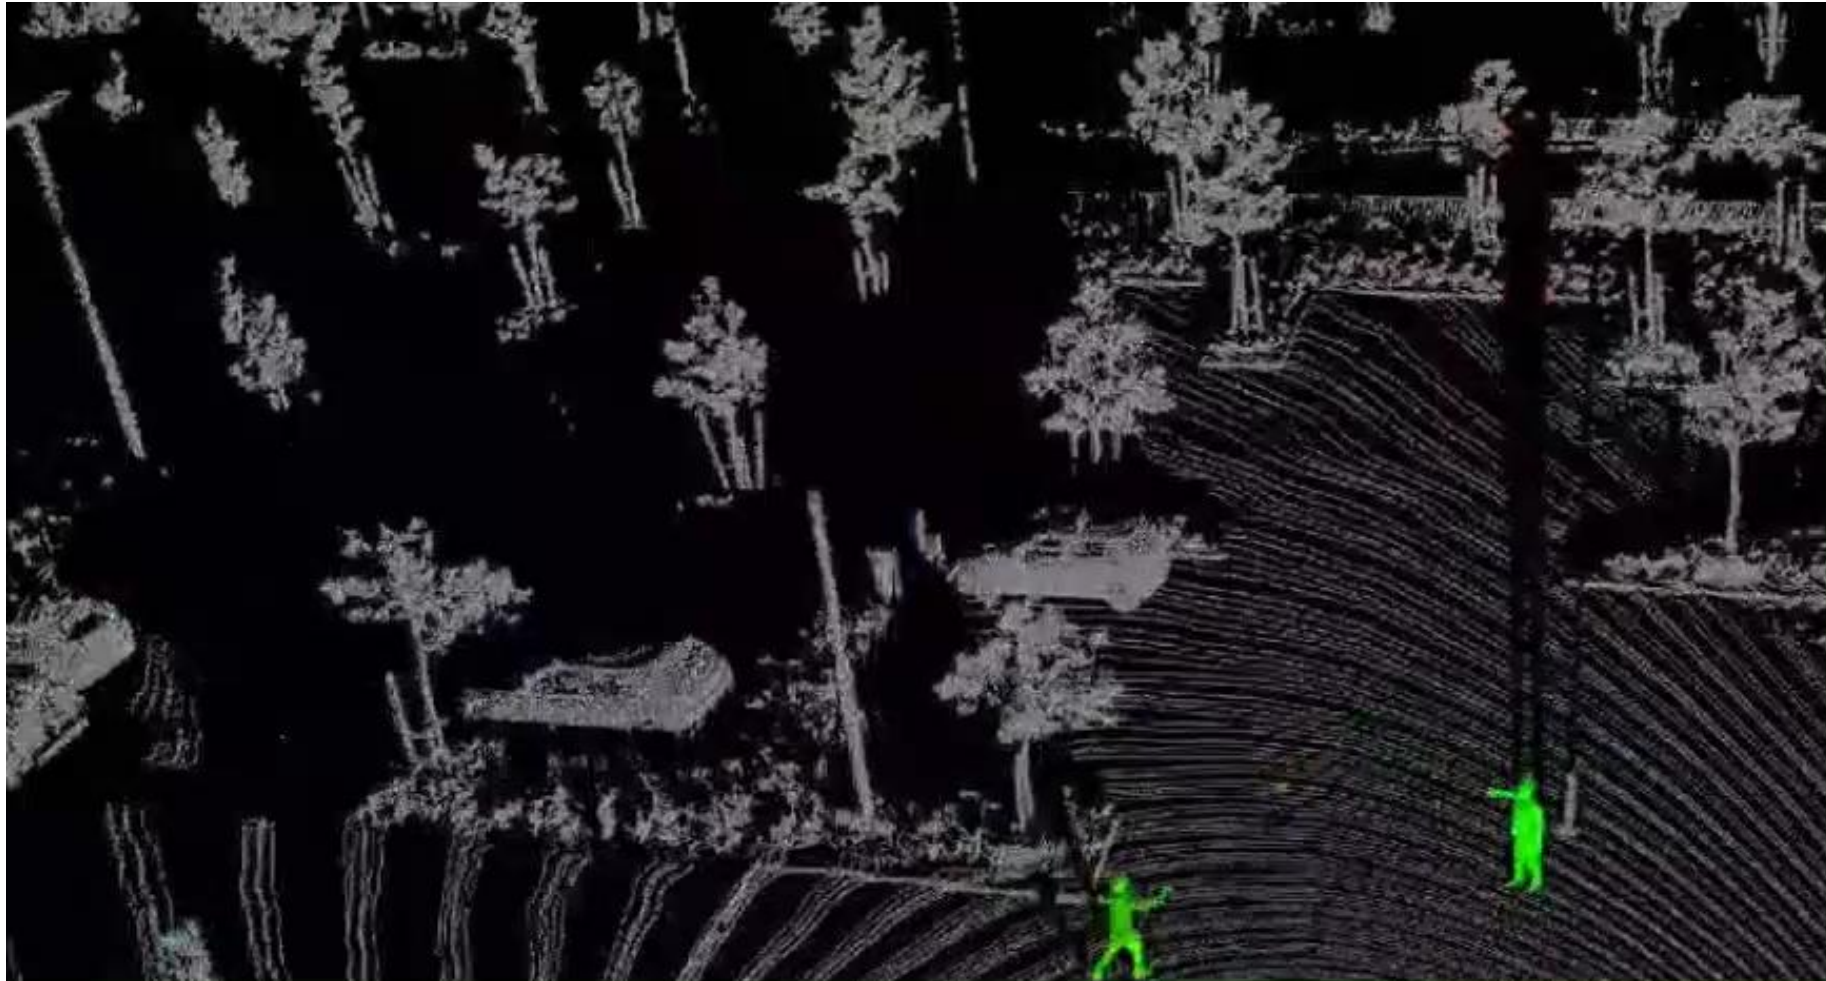

# Surveillance Applications

Turnkey solution

# Small Obstacle Detection & Background Removal

Detecting small object as small as a tennis ball for security applications

# Industrial Applications

## Why Innoviz LiDAR – Range Resolution & FOV

### › Main Use cases:

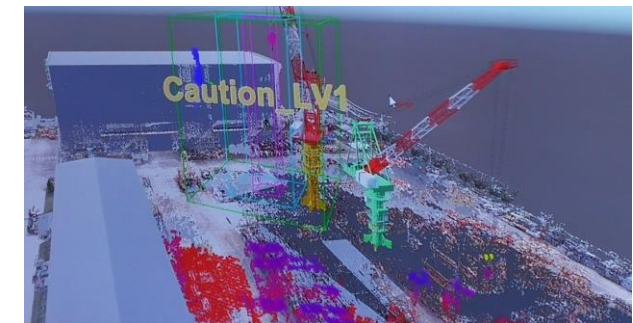

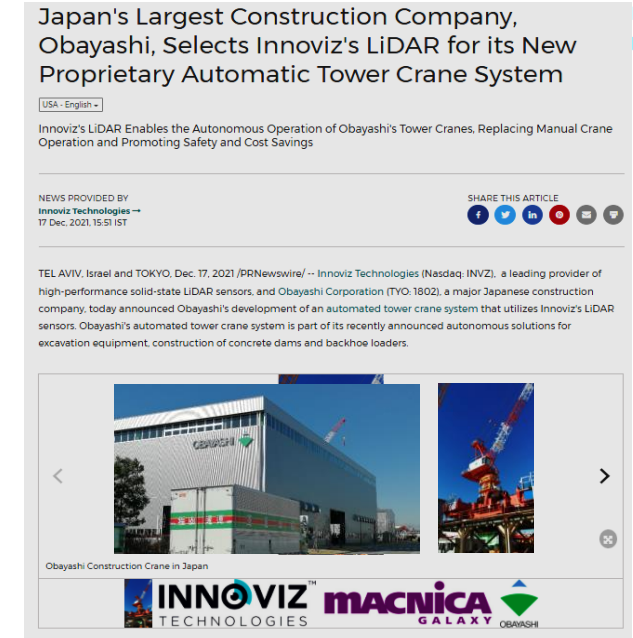

- Construction
- Robotics
- Mining
- Maritime ports & airports: Power autonomous vehicles

### › LiDAR Technology:

- Essential for Autonomous Systems: A critical enabler for achieving higher levels of autonomy

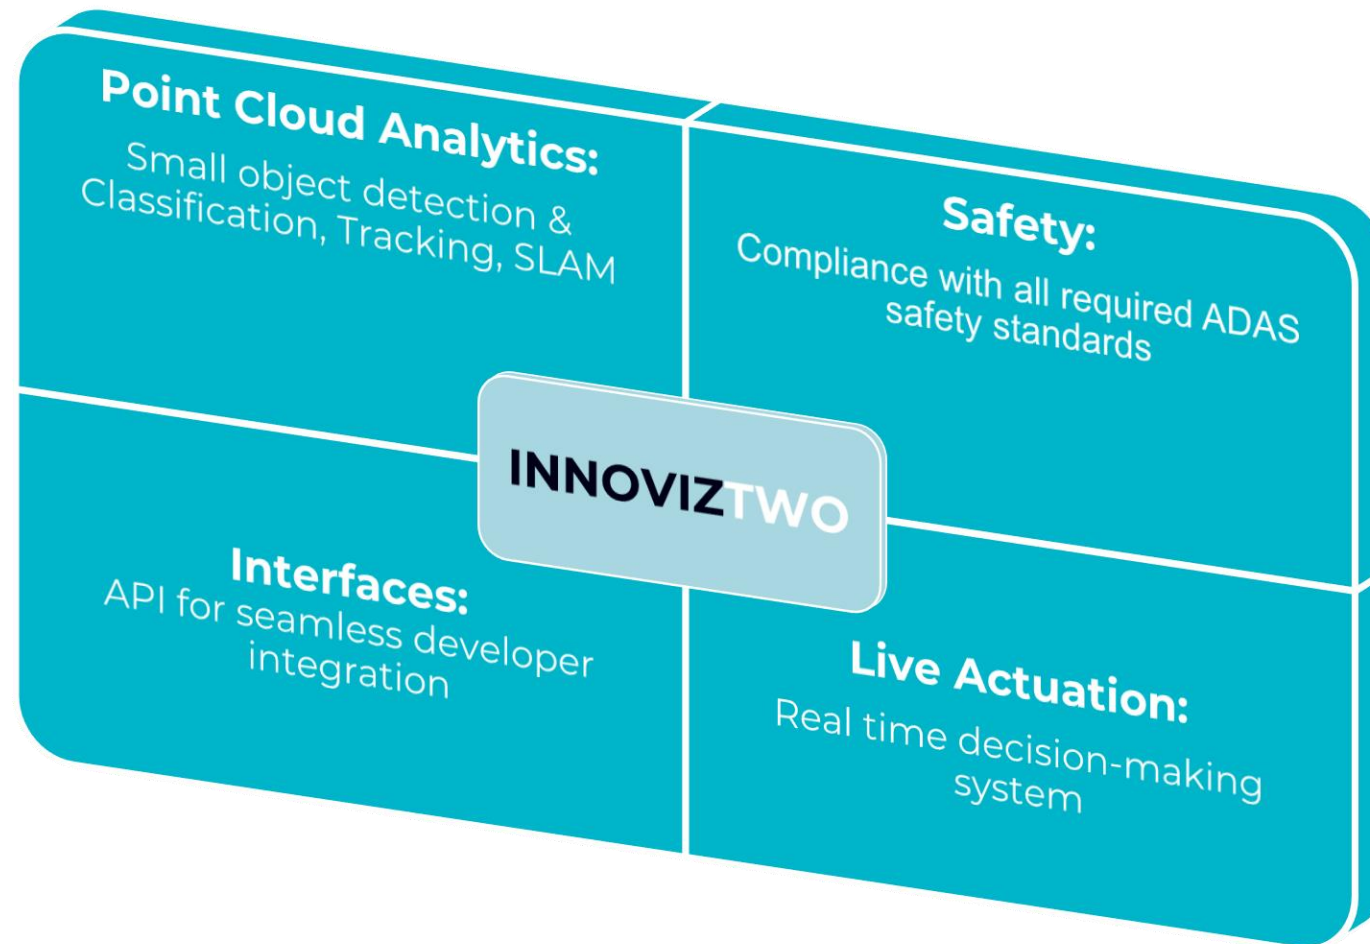

### › Innoviz LiDAR Advantages:

- Wide HFOV and VFOV – Medium Range LiDAR
- Extensive Safety Expertise
- Automotive grade reliability
- Developer-Friendly API
- Trusted supplier to strategic customers

# Industrial Application

Turnkey solution

# Harbor Container Monitoring and Control

# INNOVIZTWO Variants Summary

	INNOVIZTWO Raven	INNOVIZTWO Condor	INNOVIZTWO Seagull
Target Applications	Smart Application	Automotive	L4: Robotaxi, Trucks
Digital Range	300m	300m	100m
10% target range	180m	240m	80m
Dimensions (mm) HxWxD	46x145x123	46x145x123	103x144x112
FOV HxV	120°x24°	120°x28.8°	110°x70°
Connectivity	Ethernet / GMSL	Ethernet / GMSL	Ethernet
